Regulator**

Overseeing the offshore renewables sector

Australian Wind Industry Summit

9 Sept 2024

oir.gov.au

Offshore Infrastructure Regulator

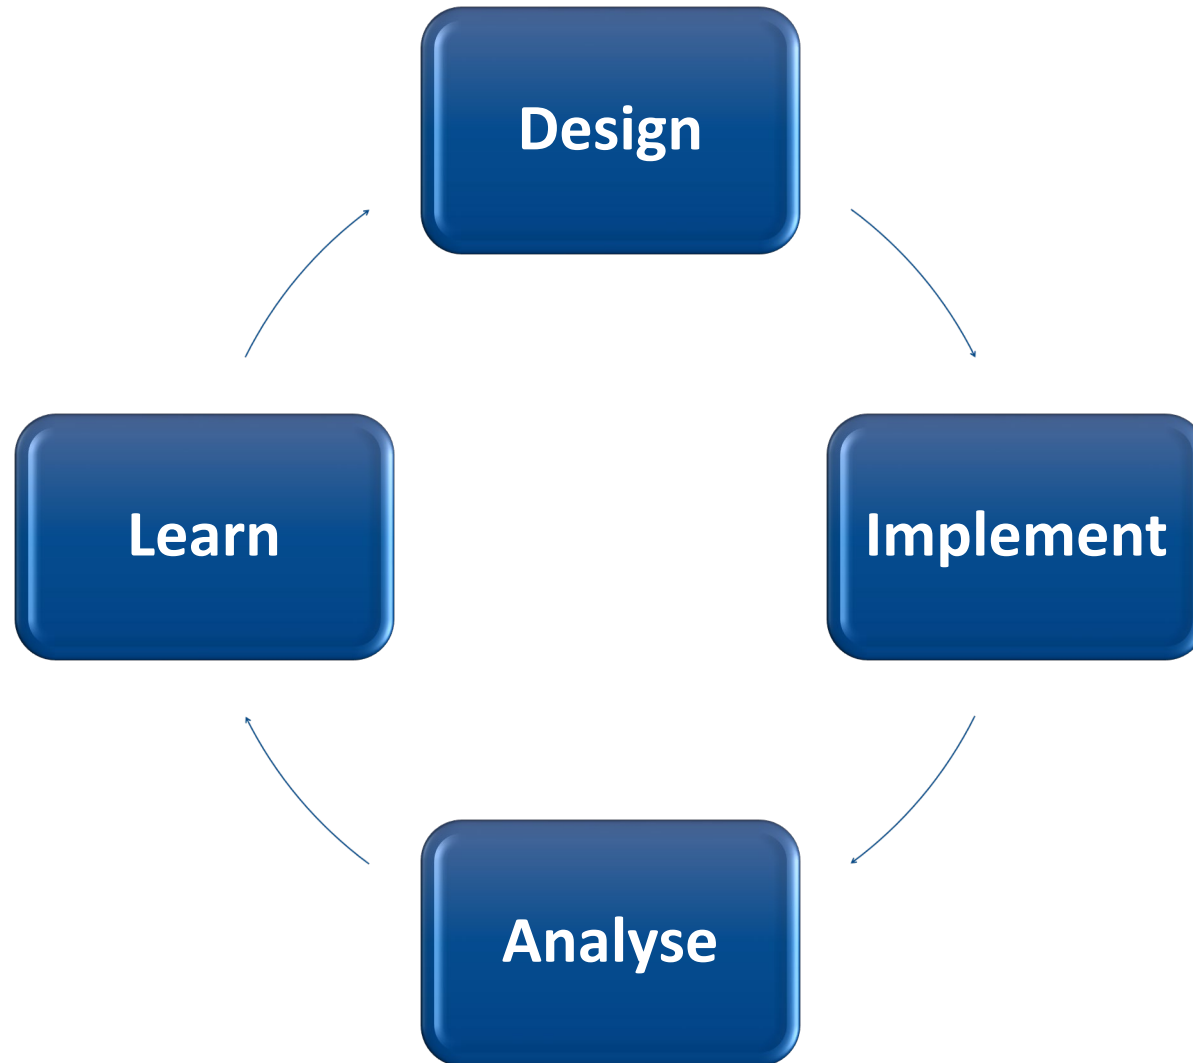

Purpose of regulation

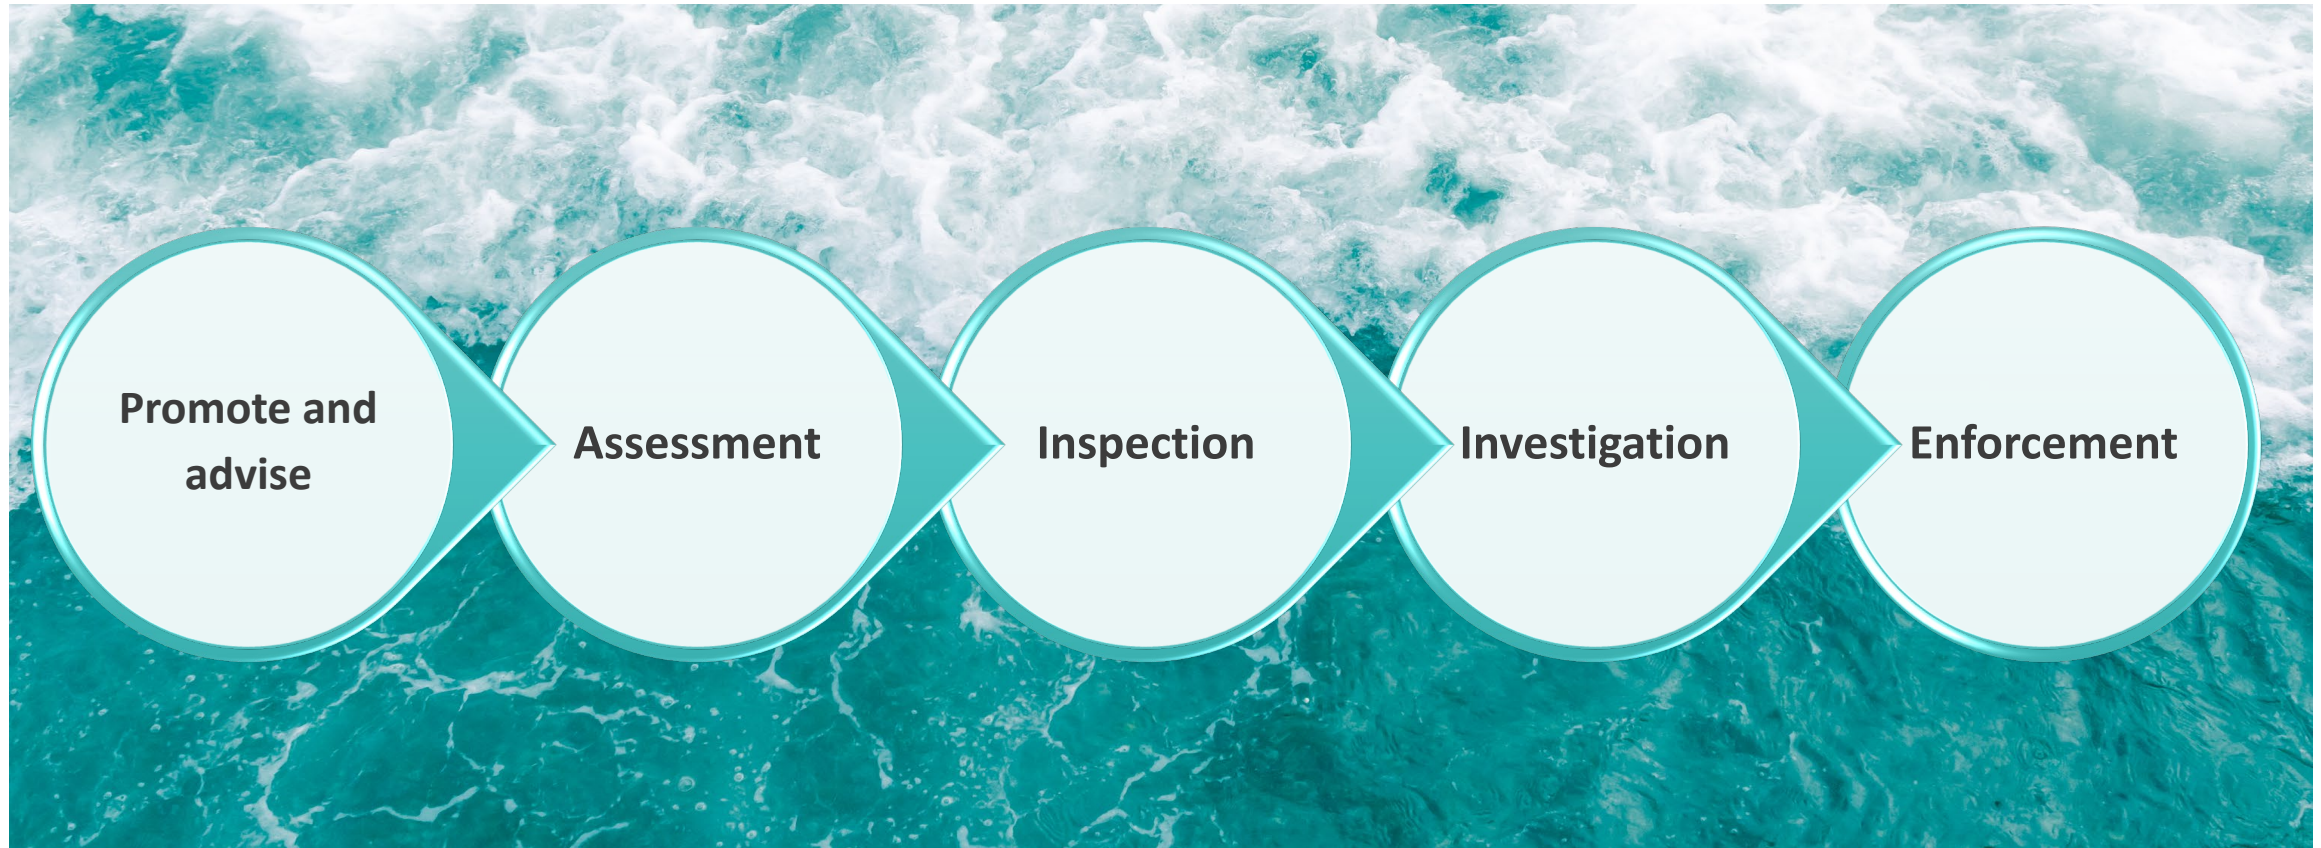

- Assuring the safety of the workforce
- Assuring the integrity of infrastructure
- Safeguarding the environment
- Accountability and funding for decommissioning and remediation
- Transparency, procedural fairness and building public trust
- Long term investment and legal certainty
- Clarity and certainty of requirements and expectations

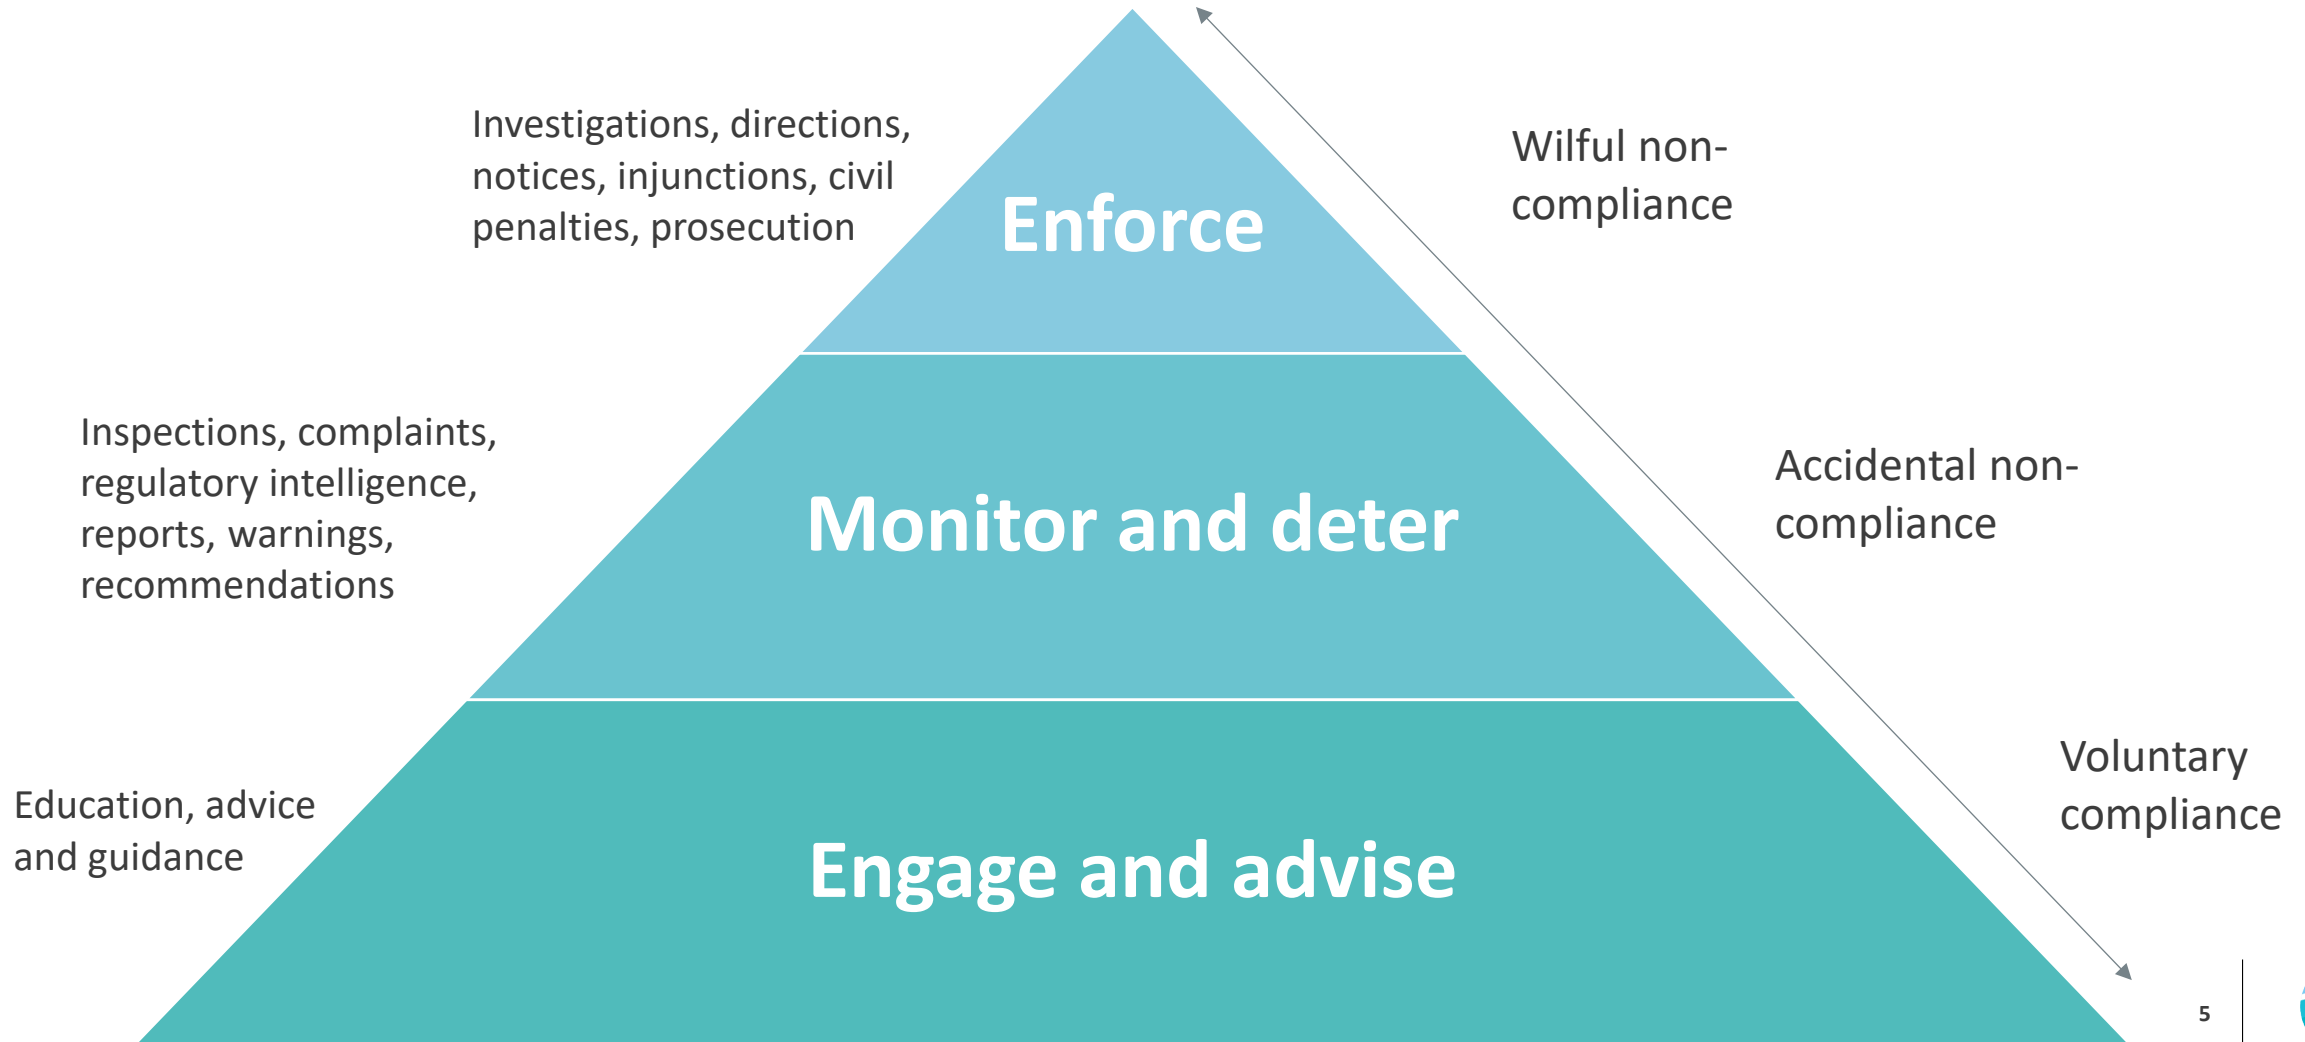

Principles of effective regulation

Our regulatory activities

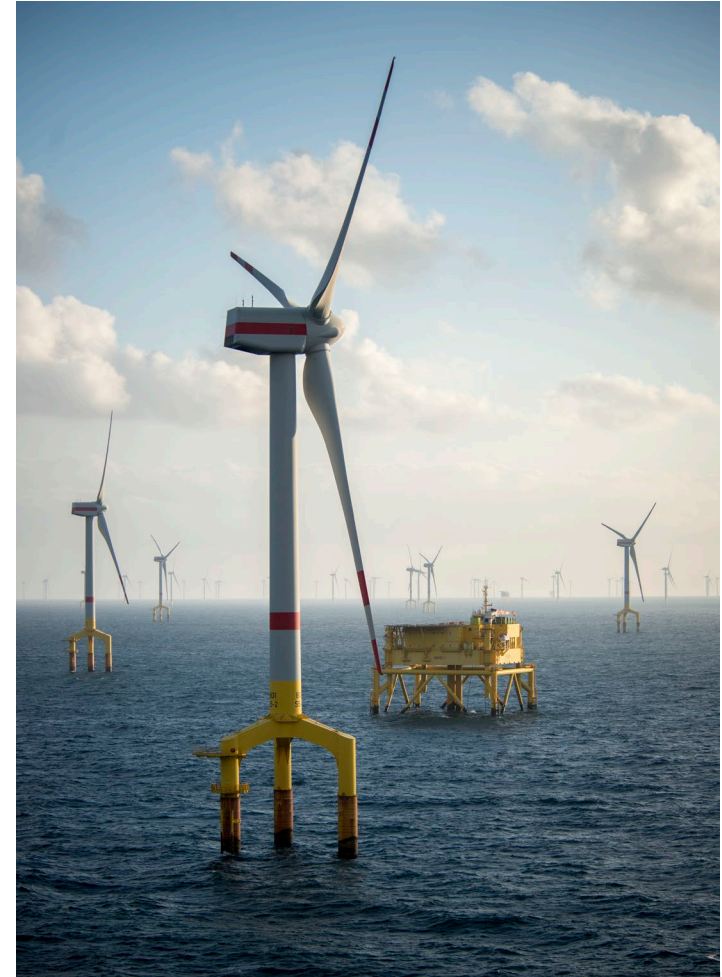

Our regulatory approach

How do we get to a commercial scale industry?

- We build a culture of safety and accountability
- We respect and work collaboratively with our stakeholders
- We are open and transparent about requirements and obligations
- We set clear expectations on one another and meet our commitments
- We seek clarity where it is absent
- We hold each other to account
